

How Officeworks helped take the work out of furnishing a workspace.

Client: Doctors at Brandon Park

With a planned move into a renovated shop in the Brandon Park shopping centre, Doctors at Brandon Park needed furniture for their new practice. The space had been completely overhauled with a fresh, uncluttered look, so their new furniture needed to suit this feel.

They requested warm, inviting and comfortable furniture with a contemporary look for both their reception and consulting areas, delivered and installed in time for their projected opening day.

Total Personnel: 6 employees

Project Time Frame: 3 weeks

Office Space: 134.4m²

When they looked into having their new practice fitted out with quality furniture, Doctors at Brandon Park knew exactly who to turn to.

Having been impressed with a recent Officeworks fit-out at Vermont Consulting Suites, Doctors at Brandon Park asked us to provide some furniture options to suit their new space. The plan was to open the new practice at the earliest opportunity, so our Workspace Specialist arranged a weekend meeting to pick furniture that was inviting, comfortable and high quality.

Thanks to our personalised service and timely follow-up, the new furniture was ordered, delivered and assembled in time for the practice's opening day. The new reception area now features comfortable and stylish Matrix chairs, while the consulting rooms have been furnished with Ashton desks that have a warm woodgrain finish, plus ergonomic chairs and stools to enable the doctors to work comfortably for long periods.
