

Officeworks helped a business grow into their new space.

The Project

Client Techforce Personnel Pty Ltd

Techforce is a niche recruitment group with 25 years' experience supplying specialist staff to a range of Australian businesses in the mining, manufacturing and health care sectors. Outgrowing their serviced office in Western Australia, Techforce approached us to help them upgrade to a larger space.

Techforce needed an open space to allow their 8 staff to work collaboratively, along with spaces for private meetings and interviews. A key consideration was to develop a solution that would allow growth and the ability to add to as the business expands.

Total Personnel 8

Project Time Frame 3 weeks

Office Space 104m²

Budget 10K

How we helped:

After measuring the site, we presented various floor layouts for Techforce to review along with detailed quotes to ensure the project was within budget.

We sourced workstations, mobile pedestals, task chairs, meeting tables and chairs, and recommended customised desks to allow for expansion. And to minimise disruption, we arranged a single delivery time and organised on-site assembly when the furniture arrived. So while we got on with setting up the new Techforce office space, Techforce could get on with running their business.

“Our Workspace Solutions Specialist took care of all the details making sure the whole project ran smoothly, on time and on budget.”
