

Polymer Slab – bangle in a floral design

Bracelets are one of the most important fashion accessories. Create your own bangle in the trendy FIMO soft trend colors and add a wonderful accent to all your favorite items of clothing.

Step-by-step tutorial

1

First knead the FIMO soft trend color pistachio nut until it is soft and then roll it out into a long strip with the acrylic roller. This should be at least 17 cm long and 2 cm wide. For ensuring the right height when rolling out the FIMO, place two wooden ice sticks (approx. 3 mm high) next to the FIMO.

2

Crumple up the aluminum foil, unfold it and place it on the green FIMO stripe. Roll the acrylic roller lightly over the aluminum foil until a nice structure is created. Then carefully remove the aluminum foil from the FIMO.

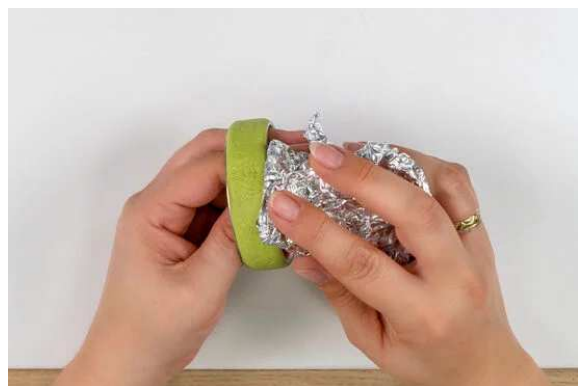

3

Now place the template (17 cm long x 2 cm wide) onto the rolled out FIMO strip and cut it to size.

4

Now you can place the FIMO strip into the bracelet and press it gently into the shape. The indented areas on the edges get the desired structure back by lightly pressing on the aluminum foil.

5

Now use the cookie cutter (approx. 2 cm diameter) to make a semicircular mark.

6

Knead a ¼ rib of each FIMO soft trend colors blueberry shake, pink grapefruit and mango caramel until it is soft and roll it into a long string (approx. 0.5 cm diameter). Then cut them into small pieces approx. 0.5 cm long.

7

Shape the cutted pieces into small drops. First, place the drops in the color Blueberry Shake on the upper edge of the marking.

8

Use the modeling stick to make two small grooves in each drop. Now the pink grapefruit drops can be placed a little further down in the semicircle so that it becomes smaller and smaller.

9

Here, too, use the modeling stick to make two small grooves in each drop. Finally, a small semicircle is placed with the drops in the color mango caramel. As with the other two drops, make a groove with the modeling stick.

Now place the bracelet on a baking sheet lined with baking paper and harden the FIMO in the oven at 110 ° C for 30 minutes. Use an oven thermometer to check the temperature regularly. Then let cool down well.

10

After cooling, carefully remove the FIMO from the bracelet and attach with superglue.

Your self-created bangle in the trendy FIMO soft trend colors is ready.

Material overview

What you need

Product	Article no.	Quantity
FIMO® 8700 05 Acrylic roller - Blistercard containing an Acrylic roller	8700 05	1
FIMO® 8700 04 Blades - Blistercard with mixed blade set, 3 pieces (1 rigid, 1 flexible and 1 serrated blade), 2 rubber grips	8700 04	1
FIMO® 8711 Modelling tools - Wallet containing 4 different modelling tools	8711	1

Additionally required:

Smooth working surface (glass or ceramic), superglue, Wooden sticks (glue 2 spacers together, height approx 0.3cm), baking paper, Cookie cutters (circular shape approx 3.5 cm and 1.8 cm in diameter), bracelet
