

Twisted hoop earrings

Mango caramel, pink grapefruit, morning breeze, blueberry shake, pistachio nut or stormy grey: you can set visual accents with the new FIMO soft trend colours. Shine with unique jewellery and create beautiful earrings in the trend colour of your choice.

Step-by-step tutorial

1

For the earrings you need a block of the new FIMO soft in a color of your choice. First, roll out the block into an even cord and divide it in half.

Tip: Work in progress and leftovers should be protected from the sun and heat and can be stored in a screw-top jar or cling film to protect them from dust and dirt.

2

Now place the two evenly rolled out FIMO cords next to each other.

3

Twist the two strings in one direction to tangle them together.

4

Now you can cut the two twisted cords into two equally long pieces.

5

Now shape the string into a circle and leave a small gap between the two ends.

Place the earrings on a baking sheet lined with baking paper and harden the FIMO in the oven at 110 ° C for 30 minutes. Use an oven thermometer to check the temperature regularly. Then let cool down well.

6

After you've let the finished earrings cool down, use superglue to glue the studs to either end.

Your self-created earrings in the trendy FIMO soft trend colors are ready.

Material overview

What you need

Product	Article no.	Quantity
FIMO® 8700 05 Acrylic roller - Blistercard containing an Acrylic roller	8700 05	1

Additionally required:
