

My Mandala

WORKSHEET

Mandala has become a generic term for any diagram, chart or geometric pattern that represents the universe. In this activity, you will create your own mandala masterpiece.

WHAT YOU'LL NEED:

Square sheet of blank paper

Ruler

Compass

Staedtler triplus fineliners

Step 1

Using a ruler, draw two diagonal lines, from corner to corner ('X').

Step 2

Draw a vertical and horizontal line through the centre ('+'). All lines should cross through the centre point.

Step 3

Measure 2cm from the centre and make a light mark on each of the lines.

Step 4

Measure another 3cm from the first marks and make another set of marks on each of the lines.

Step 5

Finally, measure another 4cm from the second set of marks and make another set of marks on each of the lines.

Step 6

Place the compass in the centre, line it up with the first marks and draw a circle.

Step 7

Repeat step 6 for the other two sets of marks so you have three circles.

Step 8

Starting from the centre, use your coloured fineliners to draw petal or tear drop shapes following the lines and stopping at the first circle.

Step 9

Continue working from the centre out, adding shapes and playing with colour.
