Thanks to our customers, we’re restoring landscapes across Australia.

Officeworks will plant two trees for every one used, based on the weight of paper-based products customers buy at Officeworks. There are regions across Australia where 85% of the natural landscapes have been lost. These locations were once called home by endangered wildlife.

Together with Greening Australia, we’ll be establishing native plants in these landscapes, increasing water quality and revegetating bushland. In turn, this helps wildlife flourish.

Restoring Australia enables us to:

- Introduce more than 20 native plants to the identified locations.
- Provide a new home for local wildlife like the Eastern Barred Bandicoot.
- Reconnect key areas of habitat to help foster biodiversity.
