About ecostore
In 1993 Malcolm and Melanie Rands started ecostore in a small New Zealand ecovillage. At ecostore we make it easy to choose safer, effective products to care for your family’s home and health, made with respect for the environment. It’s all part of our mission to make the world a safer place, one person, and one home at a time.

Plant and mineral-based ingredients
Selected because they are safer, more sustainable and designed by our world-class research and development team to be effective.

Not tested on animals
All our ingredients, formulations and products have been verified as not tested on animals, and are PETA-approved.

Responsible packaging
ecostore’s plastic bottles (excluding bulk containers) are made from renewable sugarcane, which is 100% kerbside recyclable. ecostore’s cardboard packaging has been certified by the Forest Stewardship Council (FSC).

Use one tree, we’ll plant two.

Thanks to our customers, we’re restoring landscapes across Australia.

Officeworks will plant two trees for every one used, based on the weight of paper-based products customers buy at Officeworks. There are regions across Australia where 85% of the natural landscapes have been lost. These locations were once called home by endangered wildlife.

Together with Greening Australia, we’ll be establishing native plants in these landscapes, increasing water quality and revegetating bushland. In turn, this helps wildlife flourish.

Restoring Australia enables us to:

- Introduce more than 20 native plants to the identified locations.
- Provide a new home for local wildlife like the Eastern Barred Bandicoot.
- Reconnect key areas of habitat to help foster biodiversity.
