BATCH NUMBER LOCATED HERE

### Reason the product is recalled

The housing of the power bank can come apart at the join due to swelling, compromising the battery and may cause it to overheat or catch fire.

### The hazards to consumers

Risk of serious burn injuries or property damage if the battery overheats or catches fire.

### What consumers should do

1. Stop using the power bank immediately and check the back of the power bank for batch codes listed above.
2. Return to your place of purchase to receive a full refund or replacement product.
